

International Security Academy – Israel

Protection & Counter Terrorism Training Centers

1.8.2010

Attn: CEO /Executive Director

Shalom Dear Colleague,

INVITATION
INTERNATIONAL ASSEMBLY
For
CLOSE PROTECTION SERVICE PROVIDERS
FEBRUARY 2011
LONDON – UNITED KINGDOM

OBJECTIVE

Developing business and professional connections - Networking among the participants is highly encouraged, thus enabling to provide the best, most efficient, professional and reliable protection services in general and high-risk protection in particular, worldwide.

INSIGHT

Although an undeniably positive evolution, globalization has also had its negative influences on all areas of life, more specifically concerning both personal safety and the protection of investments located in critical areas around the globe.

Security therefore, has taken the forefront in international, governmental and corporate strategies.

It is very difficult to manage protection services across national boundaries. It is unprofessional, inefficient and unreliable to persuade a client that the service is not hurt by setbacks such as:

- Lack of sufficient means (weapons, vehicles, equipment, etc.) required for the protection due to local rules and regulations.
- Various limitations, social norms and other reasons that prevent the efficient functioning of a protection team traveling from one country to another, either to an assignment or during one.

Networking has become a key factor and in our need for improving the infrastructure of protection activities worldwide, thus enabling the to provide the best, most efficient, reliable, professional and cost effective protection services with particular emphasis on High Risk Close Protection missions over seas.

ISA-ISRAEL Group, which holds professional and business relationships with many colleagues around the world providing close protection services has taken the initiative to found an independent INTERNATIONAL SUPPORTIVE CENTER that will serve and assist all of its colleagues - Close Protection service providers worldwide.

ISA – ISRAEL DOES NOT PROVIDE CLOSE PROTECTION SERVICES!

WE TRAIN, QUALIFY AND ASSIST PROTECTION PERSONNEL AND MANAGEMENT PERSONNEL TO PERFORM THEIR DUTIES WITH GREATER EASE AND MORE EFFECTIVELY.

Invitees

Independent close protection specialists as well as representatives of companies or states who provide close protection from all countries worldwide.

For further information please reply by Email to: operationcenter@ipthome.com
We will be glad to see you amongst our peers.
